This was the way Gustavo A. Madero, brother of Francisco I. Madero, leader of the revolutionary forces in Mexica, summed up to alght the latest advices from the front.

"All inc news received to-day," he continued, "we construe as highly favorable to our cause, but it seems to us an error in strategy that the federal forces were allowed to advance by rail on Justez, when it was in the power of the revolutionaries to cut communications."

The government," he said, "has sent 8,000 men into the state, and half of these have deserted. The federal troops are conscripts, many of them convicts, nghting against their own hearts, and when they encounter us and are forced to give ground, their withdrawal does not constitute a retreat; it becomes a dispersal. They vanish dissipate, desert in a body at each cheek. The engagements thus far fought have proved that one insurrecto is worth six federal soldiers in the field. Our men are young men, righting for their fields.

"If lunriz fails, the moral effect would be incalculable. Ninety-five per cent, of the nation secretly is disaffected now, but foar of Diaz and his savage reprivals has kept them under cover. Give them the signal, and the whole country will burst into fame. There will be news to-morrow of another state in revoit.

"Yes, as your Mr. James R. Garfield said yesterday at Toledo, this is real war. Diaz will never live to see his armses triumphant. If Juarez holds it will be for us only to retreat into the mountains, into country every inch of which is friendly to us, and bitterly hostile to a pursuing enemy. Even if the revolution were held to the north, it would take years to subdue it with all the forces the government can command."

Senor Madero estimates that the effective feeral army is a 1400 men.

Mr. Hitchcock said that the only change in the status of the railway mail clerks was caused by an effort of the department to effect a reasonable readiustment service so as to equalize the hours throughout the country. Through the operation of this system the hours of service of some clerks were slightly increased, while those of others were reduced. The general purpose was to have the maximum of employment not to exceed six and a half hours a day. In the working out of this system, Mr. Hitchcock suggested that the railway mail clerks

CLARK BELIEVES The Song That Is Sung **WORLD IS BETTER**

Popular Songs and Music, the Speaker-Elect Has No Patience Latest Hits of the Musical World With Those of Pessi--Any and All of Them, Now and mistic Vlew.

> Springfield, Mass., February 5 .- Declaring that he is an optimist, and that he believes the world is growing better, Representative Champ Clark, of Missouri, Speaker-elect of the next House of Representatives at Wash-ington, delivered a message of "Hope and Courage" in an address to-day be-fore the Young Men's Christian As-sociation here.

If the world were not growing better, Mr. Clark said, then the school system, about which America boasts and which costs so much, was an ig-nominious failure, and all religion was a failure, and he did not believe either to be true. Why so many good peo-ple believe the world is growing worse was explained by Mr. Clark as a matter of evolution of communication; that nowadays any place on earth is in reach of the telephone and tele-graph, and a man may do a thousand

good things and never get his name in the newspapers, but the first time does, a bad thing "in it goes."

Mr. Clark said that when he went to Missouri thirty-five years ago the average number of homicides in Pike county was between four and county was between four and five a year, and now they average less than one. That, he believed, was measur-ably frue of every other county in the country.

Signs of Improvement. Up to ten or fifteen years ago a prize fight could be pulled off in any State with absolute impunity. Now there is not a single State in which it is not a penitentiary offense. Up to comparatively recent years a duel could be fought in any State without any fear of serious consequences. Now there is no state 'n which it is not a felony. In conclusion, Mr. Clark said:

"Thanks be to Almighty God, wars are becoming rarer and rarer. One thing which the flying machine will accomplish will be to put an end for-Washington, February 5.-Miss Helen ever and forever to all wars.
